CONFIDENCE IN HAND[®]

2019 marked a quarter century in business. There was plenty of celebration. It was well deserved—the team I work alongside is built of the most hard working people I know. That's why, with mixed emotions, I announce this is my final letter to you.

While my wife and business partner, Peggy, and I have been planning our transition for awhile, life sometimes decides timing for you. This year, we'll be stepping away from the day-to-day operations a bit sooner than planned. Mark Schreiber will continue to carry forward as President, leading CRKT[®] ambitiously forward as the brand grows and builds momentum. Rest assured, we'll stick around to keep CRKT[®] centered around what means the most. Which brings me back to this year's accomplishments (and those of years prior) that all ladders up to one thing.

Confidence in Hand[®]: it's our True North. It's why our drive never lets up. This year, the proof lies in the evolution of our two newest innovations: Deadbolt[®] and Kinematic[™].

When our best-in-class designers are able to share ideas, remarkable things happen. We gave Flavio Ikoma's Deadbolt[®] to TJ Schwarz and married it with a Kit Carson custom. The results—the Parascale[™] and M40[™]—are stunning.

This year, Joe Caswell has given his Provoke[™] a new look...four of them, actually. They all feature Kinematic[™] and nearly unseat his original Provoke[™] design as the most unique knife I've ever seen.

Finally, I'm proud to see our Forged by War[®] program alive and well with Michael Rodriguez's Xolotl[™]. It's one of the first times a veteran has tackled an everyday carry and it couldn't have turned out better.

Thanks a million for all of the memories and friendship over the years. As always, thank you for being here and thank you for carrying CRKT[®].

Rod Bremer
Founder

We're pleased to introduce you more formally to President Mark Schreiber. Please read the Meet Mark blog post at: crkt.com/meet-mark

A man wearing a black cap, glasses, and a grey t-shirt with suspenders is holding a CRKT Deadbolt folding knife. The background is a workshop with various tools and equipment. A sign in the background reads "SPEED LIMIT 55".

STRENGTH
DEADBOLT[®]
IN SIMPLICITY

STRENGTH IN SIMPLICITY

Flavio Ikoma reset the bar for simplicity and usability when he introduced the world to Deadbolt[®]. The innovation's true staying power is in the conclusive demand of the consumer's unquenchable thirst for new Deadbolt[®] designs and in the hands of our world-class designers that answered the call.

When we open source innovations among CRKT[®] designers, amazing things happen. Flavio introduces us to the Linchpin[™] this year, a beefy companion built for the camp kitchen. TJ Schwarz took to creating a paracord wrapped folder. Consequently the Parascale[™] was born and becomes a uniquely useful tool for survivalists. Finally, the late Kit Carson's remarkable legacy grows in the M40[™] series. If he were around to see one of his distinctive designs built with Deadbolt[®], he undoubtedly would be beaming with pride.

We can't wait to see what's next for this powerful innovation.

Learn more about the new M40[™], Linchpin[™] and Parascale[™] featuring Deadbolt[®] in the new product section starting on page 17.

HOW DEADBOLT® WORKS

Take it at face value, and it's a shockingly simple disengagement mechanism—the prominent button is so obvious, take it in hand, and your thumb naturally gravitates in its direction. But under extreme stress is where it shines. Steel bolts interlock with the blade and the liner when it's deployed to yield incredible strength that won't so much as flinch under weight.

Serve. Protect.

KINEMATIC™

When Designer Joe Caswell first unveiled the sketches that were to become the Provoke™, we knew he was destined to become one of the most innovative designers the knife world had ever seen.

Now, Kinematic™ evolves and the Provoke™ line grows to include tools for first responders, galactic colors, and Veff Serrations™ (a truly utilitarian power pairing if there ever was one). We have no doubt that this will only prove to eternalize his reputation as somewhat of a mad scientist of the knifemaking world. From this vantage point, it's even clearer than it was before: **Kinematic™ is pulling the folder into the future whether it's ready or not.**

Learn more about the new Provoke™ knives featuring Kinematic™ on pages 31-32.

How Kinematic™ Works

At first glance, it might look like a tool relegated to the professionals. But thread your finger through the ring, firmly grasp the handle, and your thumb intuitively rests on the deployment curve. Light pressure is all it takes for it to lunge to life and disengagement is just as simple. Shift the discrete lever at the base of the finger loop and nudge the blade back into its retreated position.

**THE
SHARPER
SIDE
OF
RUGER**

OFFICIALLY LICENSED RUGER® PRODUCT

BORN OF EXPERIENCE. **FORGED BY WAR.**

MISSION-READY TOOLS, DESIGNED BY WARRIORS, WITH A PORTION OF THE PROFITS DONATED TO THE VETERANS' CHARITY OF CHOICE.

In 2013, Ryan Johnson of RMJ Tactical, designer of elite, military, tactical tomahawks, approached CRKT® with the news that he had been working with a few combat veterans that had returned from war with varying degrees of post-traumatic stress (PTS).

To help work through their challenges, they have been designing and forging steel into custom tools. Drawing from their experience earned in combat situations, they have been creating tools they wished they had available to them in the battlefield.

CRKT® cares deeply about our returning veterans and we saw a way to give back to the community that created them. In 2016, we launched the Forged By War® program.

These are mission ready tools, designed by veterans, with a portion of the profits of the program donated to the veterans' charity of choice.

Mission ready tools that are Forged By War®.

See the new tools on page 32.

**FORGED BY
WAR**

THE TECH

DEADBOLT®

Flavio Ikoma has proven that there's strength in simplicity. Steel bolts interlock with the blade when it's deployed to yield incredible strength. A prominent button sits at the pivot point for simple, intuitive disengagement without your fingers ever crossing the path of the blade.

KINEMATIC™

Joe Caswell is pulling the folder into the future whether it's ready or not. Gently nudge the upper crossbar on a Kinematic™ knife with your thumb—while the rest of your fingers firmly grasp the handle—and the blade lunges to life. Shift the discrete lever at the base of the finger loop and the blade retreats into its closed position.

FIELD STRIP

Designed by world-class knifemaker, Ken Onion, Field Strip lets you easily disassemble your knife whenever, wherever—without tools.

IKBS™

Designers Flavio Ikoma and Rick Lala invented this system that sets lubed ball bearings into the folding knife pivot. The result is rapid blade deployment that is smooth and fast. Go ahead, set a flipping land speed record.

SNAP LOCK™

This innovative cam locking system features a blade that can pivot 180°, simply press the thumb wheel and rotate the blade. When closed, the frame is an effective blade guard. When open, the harder you grip the handle, the more it locks the blade in place.

VEFF SERRATIONS™

Some hone edges. Others, like "Edgeologist" Tom Veff, reinvent them, with his exclusive and patented Veff Serrations™ that offer superior cutting of cordage, rope, and fibrous materials—none are safe.

HOLE IN ONE®

Inventor Tom Hitchcock pioneered the Hole in One® slide opener to intuitively open by simply pressing the front lever mechanism with your thumb and rotating the blade outward until it fully extends and securely clicks into place. To close the knife, press down on the lever to disengage, then swing the blade back into the closed position. This innovative opening mechanism is featured on the Daktyl™.

GLIDE LOCK

The Glide Lock keeps the blade securely closed until you push the safety button down, slide the bolster locking mechanism up, and deploy the blade. Slide the bolster back down to lock the blade in place. To release, push the safety button once again and slide the bolster locking mechanism out.

CRAWFORD LOCKBACK

The distinctive Offbeat™ knife features the Crawford Lockback mechanism. Inspired by a wire handle folder, Pat Crawford created the long cutout on the handle to slide around the butt end of the blade until it seats snugly into a notch. In this position, the harder you grip, the more secure it becomes.

HOIST'N LOK®

An innovative lobed and knurled cam successfully locks the rope into place, eliminating the need for a difficult and often inconvenient tie off. With professional hunting guide Russ Kommer's innovation, hoisting your game is now as easy as cleaning it with one of his blades.

SAFETY & ACTUATION

FOLDER SAFETY SYSTEMS

LOCKING LINER SAFETY

The CRKT® Locking Liner Safety innovation adds an ingenious layer of safety to your folding knife. The safety sets a pin between the locking liner and the frame. This pin acts as an additional layer of security so the locking liner is less likely to disengage during use. To engage the safety, push the manual lever forward. To close the knife, pull the manual lever back, slide the locking liner over, and fold the blade into the closed position. Many CRKT® folders feature this innovative safety system.

AUTOMATED LINER SAFETY

Automated Liner Safety is the locking liner safety innovation taken to the next level. The Automated Liner Safety sets a pin between the locking liner and the frame. This pin acts as an additional layer of safety, so the locking liner is less likely to disengage during use. To close the knife, pull the red buttoned safety lever back, slide the locking liner over, and fold the blade into the closed position. Want one of the most secure safety systems on the market? The choice is automatic.

OUTBURST® ASSISTED OPENING

Lightning fast. Ridiculously easy to use. These are just a few of the ways people have described our patented opening system. Just manually open the blade up to 30 degrees and the patented OutBurst® assisted opening mechanism springs the knife fully open so that you're good to go. The powerful spring also holds the blade securely closed when not in use. On many models, we've combined the OutBurst® system with our locking and actuation systems like Fire Safe® for a new level of ease of operation, as well as security.

FIRE SAFE® SAFETY

Easy to open and incredibly safe, you'll see why we came up with the name we did for our patented system that relies on a pin at the locking liner. The actuation mechanism operates on folders through one of two opener styles:

- **FIRE SAFE® THUMB STUD**

Press the spring-loaded thumb stud to release the locking liner and pin.

- **FIRE SAFE® THUMB DISK**

Press the thumb disk to release the locking liner and pin.

Whichever you use, the mechanism is easy and intuitive. Simply nudge your thumb outward and OutBurst® Handle it from there propelling your blade into an open and locked position. This pressing and nudging of the blade prevents accidental opening to put you (and your blade) in complete control of the situation.

CARSON FLIPPER

Retired Master Sergeant and custom knife-maker Kit Carson defined this ingenious opener that challenged the conventional ways of opening a knife. With a simple finger pressure of the "flipper" incorporated into the blade, the blade flips open and locks, so you're ready for action. Once open, the flipper works great as a blade guard as well. Look for the Carson Flipper featured on many of our tactical knives.

OUR DESIGNERS

We're honored to partner with the best custom knifemakers in the business to produce production versions of their custom designs. Many of them have been our friends for years, both in the office and out in the field. They make everything you've seen in these pages possible. Although CRKT® has picked up a few awards over the years, we think it's important to give credit where credit is due. These designers have done more than come up with creative designs; they've helped all of us become more independent and self-reliant.

Jim Hammond
Birmingham, AL
Years Designing: 42+

Jim was the first knifemaker to work with CRKT® in 1994, but he had more than 17 years experience under his blade-decorated belt prior to that. After graduating from Clemson in 1977, he quickly climbed the ranks, specializing in military and collector grade tactical fighters like our FE™ series. A Knifemakers' Guild member since 1978, his designs—and golf shots—are all about excellence, flair, and function.

Ed Halligan
Ocean Springs, MS
Years Designing: 41+

The second knifemaker to ever work with us, "Big Daddy K.I.S.S." knew his way around CRKT® headquarters and a 747. After years of using tools as an aircraft mechanic, Ed founded Halligan Knives in 1985. He went on to earn a Mastersmith rating from the American Bladesmithing Society and invented the often imitated, never duplicated, legendary K.I.S.S.® (Keep it Super Simple) knife series. Ed passed in 2014. His immeasurable contribution to knife-craft is greatly celebrated...and deeply missed.

Kit Carson
Vine Grove, KY
Years Designing: 40+

Kit retired as a ranking Master Sergeant and ultimately became a high-profile member of the Knifemakers' Guild. Kit designed the successful M16® knife series named one of the Top 10 Tactical Folders of the Decade by Blade Magazine. Inducted into the Cutlery Hall of Fame in 2012, Kit's industry influence was felt far and wide. He even mentored such greats as Ken Onion. Kit passed in 2014. The Carson family requests that donations be made to the National Parkinson Foundation at Parkinson.org.

Pat & Wes Crawford
West Memphis, AR
Years Designing: 74+
combined

The Crawfords know what it's like to combine old world traditions with new features. Pat, a Knifemakers' Guild member since 1973, has been a pioneer in the combat folder genre and was one of the first to utilize titanium and skeletonize frames. Wes, his son, has helped integrate exotic field materials including wood, ivory, and stag horn into their offerings. They're famous for the CRKT® Triumph N.E.C.K.™—and for pushing each other.

Russ Kommer
Fargo, ND
Years Designing: 22

To say Russ is an outdoorsman is a bit of an understatement. A professional fishing and hunting guide, he started making knives when one of his clients brought him a custom knife and dressed an entire moose—without sharpening it. Since then he's made it his duty to build the kind of tools only he would use. It just so happens his Bear Claw™, and Hoist'N Lok®, are the kinds other hunters use as well.

Brian Tighe
Ridgeville, Ontario, CA
Years Designing: 29

There are edged tool artisans...and then there's Brian Tighe. A Canadian Renaissance Man, he is practiced in the art of metallurgy, photography, and tool and die making. It's what helped him make the leap from a creator of high-quality custom folding knives into the top 10 elite. We were honored to have his Buy Tighe™ blade as our limited edition CRKT® 20th anniversary knife and are releasing the new BT Fighter™ knives for 2020.

Ed Van Hoy
Abingdon, VA
Years Designing: 43

Looking at the shelves in his shop, you'd almost think Ed specializes in awards rather than knives. But that just comes with the territory when you are pushing the limits with your designs. Just a few of his many highlights are: the A.G. Russell Most Innovative Folding Knife, Most High Tech Design-S.I.C.A.C, Best Fantasy Knife in the Ohio Valley Knife Show 2005, and Knife of the Year at the Blade Show 2004. Ed is living proof that if you love what you do, the rest comes easy.

James Williams
Bozeman, MT
Years Designing: 22

You don't want to mess with Sensei James Williams. Trust us. A former US Army officer with more than 50 years of experience in the martial arts, he developed the System of Strategy. It's a unique approach to unarmed combat that he teaches to Special Operations units and law enforcement worldwide. When he is armed, though, you'll find him brandishing blades he's created, like the Hissatsu™ fixed blade, the Shizuka noh Ken™, and the now-legendary Hissatsu™ folder.

A.G. Russell
Rogers, AR
Years Designing: 46+

Simply put, the late A.G. Russell was a man who ate, slept, and breathed knives. He was the first member of the Knife Digest Cutlery Hall of Fame, a founding member of the Knifemakers' Guild, founded the Knife Collectors Club™, and started the first mail order knife business. Even with a pedigree like that, whenever he was asked what he enjoyed most, his answer was always designing custom knives.

Tom Stokes
Williamsburg, VA
Years Designing: 15

Whenever Tom hears someone say, "it doesn't take a rocket scientist to make a knife," he'll quickly correct them. After all, having been involved in the aerospace industry for more than 25 years, he brings a unique perspective to CRKT® tools using CAD software and rapid prototyping technology. It has resulted in multi-tools that are a rare combination of artistic form and function, such as the Knife Maintenance Tool and the Iota™.

Tom Veff
Oregon City, OR
Years Designing: 15

Without Tom, many would be walking around with dull blades. The "Edgeologist," as he's commonly known, began sharpening knives in an industry that demands it: meat cutting. It wasn't long before he started applying his techniques to help others keep their blades sharp. Many CRKT® knives are indebted to Tom for his original and patented Veff Serrations™ pattern. Exclusive to CRKT® these distinctive serrations offer superior cutting of rope, cordage, and fibrous materials.

Alan Folts
Melbourne, FL
Years Designing: 25

When it comes to knives, Alan knows all about giving back to the people. He climbed the ranks in college by entering knives in art shows. Since then he's been adamant about teaching and passing on the skills of custom knifemaking to others. He specializes in one-of-a-kind fixed blades that have great ergonomics and sleek futuristic designs, such as the top selling Folts Minimalist® series and the new Minimalist® Cleaver.

Glenn Klecker
Silverton, OR
Years Designing: 19

Knifemaking is in the Klecker genes. Glenn, an engineer with a passion for knife and tool design, knows how to use them first hand, having led a marine detachment in Desert Storm. Meanwhile, his son Nathan helped build the wooden Nathan's Knife Kit that teaches kids knife safety. Glenn's innovative locking mechanism, dubbed the Klecker Lock, is featured on several CRKT® production models, including the popular NIRK™ Tighe and Graphite™ knives.

Liong Mah
Palm Bay, FL
Years Designing: 17

If we didn't know any better, we'd think the English definition of Mah is "practical." After all, it's a useful sensibility Liong incorporates into all of his designs like the Remedy™, the ever popular Eat'N Tool®, and the 2015 Mah-chete™. As a kid, when others doodled cartoons in their school notebooks, he drew knife designs. Later, having learned CAD, he was able to bring these ideas to life by collaborating with many of the top designers in the industry.

Ken Onion
Kaneohe, HI
Years Designing: 28

Ken is the real deal. The youngest ever inductee into the Blade Magazine Hall of Fame in 2008, he is recognized as one of the most innovative and successful knife designers of all time. In 1996 he created the first commercially successful assisted opening mechanism, and 20 years later unveiled his award-winning Field Strip Technology.

Flavio Ikoma
Presidente Prudente, Brazil
Years Designing: 25

Some kids dream of being a ballplayer. Flavio wanted to be a knifemaker. In his adolescence, he worked on knives of the Japanese sword variety in his father's shop. He has gone on to learn metallurgy, to work with Ken Onion, and to become a force for innovation. Flavio brought to market the revolutionary IKBS™ ball bearing pivot system (with Rick Lala), and the industry-changing Deadbolt®, exclusively available from CRKT®.

MJ Lerch
Sussex, WI
Years Designing: 7

Though MJ was introduced to the industry by way of the back end of a custom knifemaker's business, once she put her creative ingenuity to work on the machine, everything changed. Her keen ability to create one balanced, hardworking design after another has boosted her into a realm all her own. She's known for her highly-ergonomic handle designs inspired by the natural and spontaneous flow of nature.

Ray Kirk
Tahlequah, OK
Years Designing: 29

Ray Kirk started forging knives in 1989. As an American Bladesmith Society Master Smith, he specializes in useful, simple designs that are beautiful in style. He's won many awards, including three 1st Place awards at the ABS World Championship. Ray works with the KGA of Oklahoma and was presented the Dee Daniel Boone Award for preserving the art and history of the forged blade. Ray designed the K.E.R.T.™ tool that has become a popular multi-tool.

Ryan Johnson of RMJ Tactical
Chattanooga, TN
Years Designing: 33

The fireplace is never without wood at the Johnson house. That's because for years at RMJ Tactical, Ryan has been building some of the finest custom tomahawks this country has ever seen. Applying modern engineering to centuries-old tool and weapon concepts, he redefined the role of tomahawks in Law Enforcement and Special Forces Military Applications.

Matthew Lerch
Sussex, WI
Years Designing: 35

What happens when you cross art and mechanics? You get something that looks like Matthew Lerch. Trained initially as a jeweler/watchmaker, he progressed into manufacturing and tool making. Now he has a few patents under his belt for innovations, like the Fire Safe®, and has been honored with some prestigious awards including the Buster Warenski award. Matt views knives as functional art, as evident by his Moxie™ and Blade Show award-winning Endorser™ design.

Ken Steigerwalt
Orangeville, PA
Years Designing: 38

Ever since he was a kid, if Ken needed a knife, he just made one. His first one was built from a saw blade at the kitchen table using a vise, files, and sandpaper. Needless to say, he's gone on to create more highly designed knives that have won him 11 Blade Show awards in seven consecutive years, including two Best Folders awards and one Best Folder of the Year. He also co-designed the patented Fire Safe® safety innovation, which is used on many CRKT® blades.

Lucas Burnley
Orleans, MA
Years Designing: 15

When you ask Lucas what drew him to the knife world as a teenager, he'll tell you about stories of survival, off-path adventures with his father, and a healthy dose of action movies. Over the years, he has experimented with a broad range of styles to artfully combine classical elements with modern materials and techniques, like with his Tuna™ and Nishi™. Lucas believes knives are a personal expression of independence. We couldn't agree more.

Terry Renner
Palmetto, FL
Years Designing: 29+

Terry likes tinkering with things—designs, tooling, and fixtures for road and mountain bikes, and of course, blades. A mechanical designer and artist at heart, he worked in the bicycle industry for thirty years. He always had a fascination with edged objects and moonlighted as a fabricator for new and different locking mechanisms for folding knives. In 2006 he went to full-time knifemaker status and was awarded Best New Knifemaker at the Blade Show. Terry's a current member and a former three-term President of the Florida Knifemakers' Association.

Larry Fischer
Boise, ID
Years Designing: 1

An avid traditional bowhunter, outdoorsman, and conservationist, Larry's no-nonsense approach to all he endeavored was readily apparent in everything he did. Larry served on the National Board of Directors for Backcountry Hunters and Anglers, was a lifetime member and past president of the Professional Bowhunters Society, and was an active member of Traditional Bowhunters of Montana and Traditional Archers of Oregon. Larry lost his courageous battle with cancer before his first design, the Hunt'N Fisch™ made it to market.

Tom Krein
Gentry, AR
Years Designing: 24

"Form follows function" is more than just a saying for Tom. It's a philosophy that guides every knife and design decision he makes. After all, having been an ER nurse and later working as a knifemaker, he knows what works. Blending art with handcrafted steel, he creates tools that get used often. Whether it's cleaning a freshly landed trout with his Mossback™ knife or dicing up vegetables from the garden outside his shop that's free to the public.

Jesper Voxnaes
Loegstrup, Denmark
Years Designing: 28

When Jesper needs to test a design, he only has to step into his own backyard. The harsh elements and conditions of the fjords and forests in his native Denmark do the rest. When he was starting out, no one was making the kind of knives he wanted to design so he learned by trial and error. His efforts paid off as evident by his IF Award in 2013 for one of the Top European Designs. Now he creates and uses knives like the Piet™ and Pilar® as he sails, camps, and drives off-road. Which is more often than not.

Robert Carter
Hillister, TX
Years Designing: 6

When you come from a long line of knifemakers, it's hard not to have it rub off on you. For Robert, this happened at an early age. Since childhood, he's always been fascinated with aircraft and lines that have a speed-of-sound look to them. Taking traditional cues from his father-in-law, Joe Pardue, and grandfather, Mel Pardue, he creates knives that have a progressive design such as the Jettison™. Robert has definitely earned his design stripes in the family. But that doesn't mean anyone's backing away from the shop's machine for him anytime soon.

Darrin William Sirois
Fayetteville, NC
Years Designing: 10

Coming from a Special Ops background, Darrin doesn't design knives that just work in theory. They need work in action too. And he knows the missing element to any great blade: human input. That's why you'll often find him hounding his Special Operations teammates and asking them what they like and don't like about their knives. Now as part of the Forged by War® program he's fine-tuning until his knifemaking mission is complete. Along the way, he's earning nods from awards shows and fellow soldiers all around the world.

Austin McGlaun
Spring Lake Park, MN
Years Designing: 17

There are those who fight with knives. There are others who design them. And then...there's Austin. Having served in the 101st Airborne Division in Iraq, and as a street cop in Columbus, GA, he knows that a knife has to work as both a weapon and a tool. As part of the Forged By War® program he applied his skills as both a combat vet and knifemaker to develop the Clever Girl™. Not to mention a new way to bring his fellow soldiers home. When asked about his design philosophy, he'll tell you that if a knife is ugly but effective, it's not ugly. It's perfect.

Elmer Roush
Brasstown, NC
Years Designing: 43

Elmer has spent his fair share of time on the battlefield. But these days, what really gives him excitement is battling hot steel with a hammer as a blacksmith. He enjoys hand forging functional edged tools and brings over 40 years of experience to the Forged By War® program. Axes, hatchets, and historical replicas, such as Viking axes are his specialty. Though his designs look modern, they're actually based on tools and implements that go back thousands of years.

Michael R. Rodriguez
Fayetteville, NC
Years Designing: 8

Michael R. Rodriguez was one of only two Americans to graduate from the Irish Army Ranger Wing Sniper Course, and he's a Chief Ambassador for the Green Beret Foundation. Truly, if we attempted to list the rest of his accolades, we'd run out of ink. His experience as a combat veteran pivoted when he met Ryan Johnson of RMJ Tactical during a recovery period. Then, forging knives and tools became a passion project for him—one that is starkly reflected in his products that we are proud to represent in our Forged By War® program.

Kelly Rodriguez
Fayetteville, NC
Years Designing: 5

If there's ever a Soldier that's felt like there's someone looking out, there's a good chance that someone is Kelly. As an active duty soldier and field medic for the Army for over 20 years, Kelly brings raw talent to the Forged By War® program. She designed the CST™ because dedicating years of service in the field wasn't enough—she's continuing the legacy from the homefront. Since retiring, she's dedicated much of her time to working with organizations that focus on female veterans' issues.

Jeremy Valdez
Olalla, WA
Years Designing: 5

Upon meeting Jeremy Valdez, our definition of "American hero" shifted. He epitomizes bravery; after serving 14 years as a Special Forces Green Beret he's become the vice chief ambassador for the foundation. Further, he's been recognized with two purple hearts, six bronze stars, one for valor, and the Special Forces Philip Neri award. So when renowned designer Bill Harsey stepped in to help Jeremy realize his long-time dream of designing his own knives, we jumped in to lend a hand. We're proud to represent him and his breakout design in our Forged By War® program.

Philip Booth
Ithaca, MI
Years Designing: 30

Philip Booth is a modern day version of a human phoenix—when his art studio burned down in the late 80's, it left his life's work of paintings and art prints reduced to ashes. Instead of letting it knock him down, he was reborn as a knifemaker, and has since swept up a handful of prestigious awards like the Blade Show's Most Innovative Design award, and their 2005 Best of the Rest award. He's a mechanically orientated artist, and his innovative, artful tools are proof.

Larry Hanks
Smith Valley, NV
Years Designing: 7

Practically born a woodworker, Larry Hanks' talents flowed into jewelry design and foundry work, and culminated in a decorated career as a tattoo artist. Then he met Ken Onion. Larry's knife engraving was so skilled that Ken Onion enlisted his talents shortly after they met, and now they've been working together for over 20 years. It wasn't until four short years ago that Larry took on his own projects. The progression was natural, and there's no doubt around here that his knifemaking career will soon eclipse his tattooing career.

Jeff Park
Mililani, HI
Years Designing: 5

One fateful day in 2005, he walked into Ken Onion's shop in Kaneohe, Hawaii, and never left. Well, that's not entirely true, but he's certainly made an impact on the world-class knife maker and has learned a thing or two along the way. Jeff Park is a detail-oriented type of guy, and by that we mean he's an absolute perfectionist, and it shows in his simple, yet flawless designs. He's an artist in the most fundamental respect: form follows function, and his knives reflect a remarkable understanding of both.

Tom Hitchcock
Talent, OR
Years Designing: 39

He's renowned as a sculptor, an inventor, a custom bike builder, and an expert in permaculture. So to say Tom Hitchcock is a modern-day Renaissance Man is an understatement. He steals from his wide spectrum of interests when he takes to designing a new knife, and the result is always something highly unexpected and incredibly useful. He's most famous for his novel, minimal Hole in One. His logic: "Albert Einstein said to make things as simple as you can and no simpler, and this is exactly what I strive to do."

Dew Hara
Seki, Japan
Years Designing: 4

Dew Hara is a product of his environment... literally. Makers in his hometown of Seki, Japan, are famous for designing and producing some of the best fine kitchen cutlery in the world. He also carries the world-famous Hara name; his father, Koji Hara, is one of the most respected designers alive. Dew's work stands solidly on its own, though—his ability to infuse elements from the natural world is unparalleled, and he's only just scratched the surface of what's sure to be a long and productive career.

Richard Rogers
Magdalena, NM
Years Designing: 22

Though he'll tell you he's only been seriously designing for four years, his extensive list of awards dating back to '97 paint a different story. Richard Rogers is modest as modest comes, creating some of the simplest, most practical everyday carry folders in the industry. When he's not at the bench, he's at the helm of a working cattle ranch out in the arid shrublands of the southwest. His life both as a rancher and a designer are governed by one serious principle: "good enough isn't acceptable." We're on board.

Eric Ochs
Sherwood, OR
Years Designing: 11

Eric Ochs grew up with the Oregon backwoods constantly knocking at his door. In a way, his fate was sealed when his father gifted him his first knife when he was just six years old. Since then, he's hard pressed to remember a day without one in his pocket. This self-taught talent is still inspired to this day by the pursuit of adventure in the Pacific Northwest's rugged terrain from the top of the North Cascades to the lazy, meandering rivers at their feet.

T.J. Schwarz
Boise, ID
Years Designing: 6

TJ was destined to be a car designer. In high school he discovered his uncanny ability to draw cars—in fact, he was so good at it that by the time he was in college, he was accepting commissions from classic car owners. Just as his career was starting down the automotive path, his good friend Bill Koenig of Koenig Knives intervened and everything shifted. Once he got a taste of knife design, he never looked back. So when he says, "engineered for performance," he means it.

Chuck Cook
Dundee, OR
Years Designing: 13

If you find yourself marooned in the backwoods, you'd better hope that either Chuck Cook is nearby, or you've put his survival tools in your pack. He's a graduate of several wilderness survival schools, an authority on online bushcraft forums, and we don't doubt that he's spent more nights in the woods than we have in our beds. Oh, and did we mention that his day job is as a semiconductor? That explains his mechanical savviness and deadly accuracy.

Joe Caswell
Newbury Park, CA
Years Designing: 24

Moto journalist. Viking sword pattern welder. Inventor. Amateur patent attorney. Custom knife designer. It's safe to say that Joe is cut of a special cloth. And now, he can add "industry disrupter" to his resume. With the release of Kinematic™, he invariably secures himself a position among the knife world's greatest. From humble beginnings in his homemade forge occupying his rented condo's garage, he's built a name for himself one hard working late night at a time, and we can't wait to see what comes from his inspired creativity next.

Ryan Glasgow
Portland, OR
Years Designing: 18

Like many kids who grow up to be formidable inventors, Ryan Glasgow's passion was ignited with a box of legos. As he got older his interests became more sophisticated when he stepped into the world of sheet metal fabrication and CAD design. His epiphany came soon thereafter: creating something that's different and genuinely useful is a difficult task and also among the most satisfying. If his newest CRKT™ design, the Twist & Fix™, is evidence of what's to come, he's on a solid path to helping the world happily destroy to-do lists.

Bill Harsey
Creswell, OR
Years Designing: 21

Knife making started out for Bill as a combination of growing up hunting and fishing in the outdoors of Oregon and an interest in working steel. Bill started by welding on logging equipment at the age of 15. His interest in heat treating and manufacturing steel tools is core to what he does. Design is a key element for Bill in his work and knowing that the knife continues to be a useful tool in the human hand even in this age of technology.

Brian Fellhoelter
Hazlehurst, MS
Years Designing: 12

With over 25 years' experience as a Tool-maker, Brian Fellhoelter, the designer of the innovative Ruger® Bolt-Action pen and pencil, first became inspired to start designing knives after receiving Bob Terzuola's book, The Tactical Folding Knife, in August of 2005 for his birthday. While he makes the occasional fixed blade, folders are Brian's passion. He has won several awards during his 12 years as a knifemaker, including Best Tactical Folder at the 2011 Blade Show.

Joe Wu
Mountain View, CA
Years Designing: 6

Always tinkering and seeking new ways to improve existing designs, Joe Wu got his start in product design with Scout Leather Co. by making products from personal necessity and experience. He's been taking his ideas and honing his shop skills over the last few years by using traditional methods with a modern approach. His designs and ideas are driven by simplicity and the user experience; good design doesn't have to be complicated.

Gary Smith
Woodbury, VT
Years Designing: 18

Gary became acquainted with the 1911 pistol during his service in the US Army back in the late sixties. As a truck driver on the DMZ, a RTO in the Mekong Delta, and an MP at Fort Dix, he became very fond of it. He subsequently worked with Caspian Arms, manufacturing first class 1911 components for 30 years and became a member of the prestigious American Pistol Guild in 2002. He recognized a need for a portable pocket tool that would completely service it in the field or in the shop and subsequently developed the popular 1911 pocketsmith multi-tool.

Mike Bond
Pearl City, HI
Years Designing: 10

Bond, Mike Bond...a last name with big shoes to fill. But, if you ask Mike, he'll tell you he's more Q than James (we still think he's a secret agent). Mike is well known for his contributions to the multi-tool and pen market with his utility-enhanced carabiners and his patented magnetically capped pen, the TechLiner. Head honcho at Ti2 Design, Mike operates his shop on the island of Oahu and is known throughout the EDC industry as a consummate gadgeteer.

M40™

Designed by Kit Carson in Vine Grove, Kentucky

Discovered in a private collection and brought to life. The late Kit Carson's memory is felt strongly throughout the industry—it shows in the absolute reverence the knife world has for his M16® and M21™ designs. The M40™ everyday carry folding knife is based on a legacy design. This version is reimagined with Deadbolt®, marrying classic design with contemporary innovation. Kit's legacy just keeps growing.

- Innovative Deadbolt® Locking Mechanism is Simple to Use and Provides Incredible Strength
- Flipper Opening Combined with IKBS™ Ball Bearing Pivot System Deploys the Blade Smooth and Fast
- Glass Reinforced Nylon and Aluminum Bolster Handle is Strong and Lightweight

Edge: Plain
Steel: 12C27 Sandvik
Finish: Black Oxide
Thickness: 0.134" (3.4 mm)

Closed: 5.337" (135.7 mm)
Open: 9.313" (236.5 mm)
Weight: 6.2 oz. (176.7 g)
Handle: Stainless Steel
Style: Folding Knife w/Frame Lock

M16® - 02Z TANTO

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Carson Flipper Opening
- Glass-Reinforced Nylon Handle

M16-02Z

Blade: Length: 3.000" (76.2 mm)
Edge: Plain
Steel: AUS 8
Finish: Bead Blast
Thickness: 0.120" (3.0 mm)

Closed: 4.250" (107.9 mm)
Open: 7.375" (187.3 mm)
Weight: 3.6 oz. (102.0 g)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822

M16® - 12Z TANTO WITH TRIPLE POINT™ SERRATIONS

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Triple Point™ Serrations
- Glass-Reinforced Nylon Handle

M16-12Z

Blade: Length: 3.000" (76.2 mm)
Edge: Combination
Steel: AUS 8
Finish: Bead Blast
Thickness: 0.120" (3.0 mm)

Closed: 4.250" (107.9 mm)
Open: 7.375" (187.3 mm)
Weight: 3.6 oz. (102.0 g)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822

M16® - 03Z SPEAR POINT

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Carson Flipper Opening
- Glass-Reinforced Nylon Handle

M16-03Z

Blade: Length: 3.500" (88.9 mm)
Edge: Plain
Steel: AUS 8
Finish: Bead Blast
Thickness: 0.120" (3.0 mm)

Closed: 4.750" (120.6 mm)
Open: 8.250" (209.5 mm)
Weight: 3.5 oz. (99.2 g)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822

M16® - 13Z SPEAR POINT WITH TRIPLE POINT™ SERRATIONS

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Triple Point™ Serrations
- Glass-Reinforced Nylon Handle

M16-13Z

Blade: Length: 3.500" (88.9 mm)
Edge: Combination
Steel: AUS 8
Finish: Bead Blast
Thickness: 0.120" (3.0 mm)

Closed: 4.750" (120.6 mm)
Open: 8.250" (209.5 mm)
Weight: 3.5 oz. (99.2 g)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822

Available in Clam Pack as M16-13ZC

M16® - 04Z TANTO LARGE

Designed by Kit Carson in Vine Grove, Kentucky

**M16-04Z**

Blade: Length: 3.875" (98.4 mm)
Edge: Plain
Steel: AUS 8
Finish: Bead Blast
Thickness: 0.120" (3.0 mm)
Closed: 5.375" (136.5 mm)
Open: 9.250" (234.9 mm)
Weight: 5.9 oz. (167.0 g)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822

- Automated Liner Safety
- Carson Flipper Opening
- Glass-Reinforced Nylon Handle

M16® - 14Z TANTO LARGE WITH TRIPLE POINT™ SERRATIONS

Designed by Kit Carson in Vine Grove, Kentucky

**M16-14Z**

Blade: Length: 3.875" (98.4 mm)
Edge: Combination
Steel: AUS 8
Finish: Bead Blast
Thickness: 0.120" (3.0 mm)
Closed: 5.375" (136.5 mm)
Open: 9.250" (234.9 mm)
Weight: 5.9 oz. (167.0 g)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822

- Automated Liner Safety
- Triple Point™ Serrations
- Glass-Reinforced Nylon Handle

M16® - 01Z SPEAR POINT

Designed by Kit Carson in Vine Grove, Kentucky

**M16-01Z**

Blade: Length: 3.125" (79.3 mm)
Edge: Plain
Steel: 8Cr14MoV
Finish: Bead Blast
Thickness: 0.080" (2.0 mm)
Closed: 4.000" (101.6 mm)
Open: 7.125" (180.9 mm)
Weight: 2.3 oz. (87.9 g)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822

- Automated Liner Safety
- Carson Flipper Opening
- Glass-Reinforced Nylon Handle

M16® - 01KZ SPEAR POINT BLACK

Designed by Kit Carson in Vine Grove, Kentucky

**M16-01KZ**

Blade: Length: 3.125" (79.3 mm)
Edge: Plain
Steel: 8Cr14MoV
Finish: Black EDP Finish
Thickness: 0.080" (2.0 mm)
Closed: 4.000" (101.6 mm)
Open: 7.125" (180.9 mm)
Weight: 2.3 oz. (87.9 g)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822

Available in Clam Pack as M16-01KZC

- Automated Liner Safety
- Black Corrosion Resistant EDP Coating
- Glass-Reinforced Nylon Handle

M16® - 10Z TANTO WITH TRIPLE POINT™ SERRATIONS

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Triple Point™ Serrations
- Glass-Reinforced Nylon Handle

M16-10Z

Blade: Length: 3.000" (76.2 mm)
Edge: Combination

Blade: Length: 3.000" (76.2 mm)
Edge: Combination
Steel: 8Cr14MoV
Finish: Black EDP
Thickness: 0.080" (2.0 mm)
Closed: 4.000" (101.6 mm)
Open: 7.125" (180.9 mm)
Weight: 2.3 oz. (87.9 g)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822

Available in Clam Pack as M16-10KZC

M16® - 01S SPEAR POINT STAINLESS STEEL HANDLE

Designed by Kit Carson in Vine Grove, Kentucky

- Frame Lock
- Stainless Steel Handle
- Carson Flipper Opening

M16-01S

Blade: Length: 3.060" (77.7 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Bead Blast
Thickness: 0.098" (2.4 mm)
Closed: 4.000" (101.6 mm)
Open: 7.130" (181.1 mm)
Weight: 2.6 oz. (73.7 g)
Handle: Stainless Steel
Style: Folding Knife w/Frame Lock

Available in Clam Pack as M16-01SC

M16® - 01KS SPEAR POINT BLACK STAINLESS STEEL HANDLE

Designed by Kit Carson in Vine Grove, Kentucky

- Frame Lock
- Stainless Steel Handle
- Black Corrosion Resistant EDP Coating

M16-01KS

Blade: Length: 3.060" (77.7 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Black EDP
Thickness: 0.098" (2.4 mm)
Closed: 4.000" (101.6 mm)
Open: 7.130" (181.1 mm)
Weight: 2.6 oz. (73.7 g)
Handle: Stainless Steel
Style: Folding Knife w/Frame Lock

M16® - 10S TANTO WITH TRIPLE POINT™ SERRATIONS STAINLESS STEEL HANDLE

Designed by Kit Carson in Vine Grove, Kentucky

- Frame Lock
- Stainless Steel Handle
- Triple Point™ Serrations

M16-10S

Blade: Length: 3.060" (77.7 mm)
Edge: Combination
Steel: 8Cr13MoV
Finish: Bead Blast
Thickness: 0.098" (2.4 mm)

Closed: 4.000" (101.6 mm)
Open: 7.000" (177.8 mm)
Weight: 2.6 oz. (73.7 g)
Handle: Stainless Steel
Style: Folding Knife w/Frame Lock

Closed: 4.000" (101.6 mm)
Open: 7.000" (177.8 mm)
Weight: 2.6 oz. (73.7 g)
Handle: Stainless Steel
Style: Folding Knife w/Frame Lock

Available in Clam Pack as M16-10KSC

M16® - 10KSF TANTO BLACK WITH TRIPLE POINT™ SERRATIONS STAINLESS STEEL HANDLE

Designed by Kit Carson in Vine Grove, Kentucky

- Frame Lock w/Dual Hilt
- Triple Point™ Serrations
- Black Corrosion Resistant EDP Coating

M16-10KSF

Blade: Length: 2.940" (74.6 mm)
Edge: Combination
Steel: 8Cr13MoV
Finish: Black EDP
Thickness: 0.098" (2.4 mm)

Closed: 4.000" (101.6 mm)
Open: 7.000" (177.8 mm)
Weight: 2.7 oz. (73.7 g)
Handle: Stainless Steel w/Dual Hilt
Style: Folding Knife w/Frame Lock

M21™ - 10KSF WITH TRIPLE POINT™ SERRATIONS

Designed by Kit Carson in Vine Grove, Kentucky

- Frame Lock w/Dual Hilt
- Triple Point™ Serrations
- Black Oxide Blade Finish

M21-10KSF

Blade: Length: 3.134" (79.6 mm)
Edge: Combination
Steel: 8Cr13MoV
Finish: Black Oxide
Thickness: 0.096" (2.4 mm)

Closed: 4.011" (101.8 mm)
Open: 7.188" (182.5 mm)
Weight: 2.8 oz. (79.3 g)
Handle: Stainless Steel
Style: Folding Knife w/Frame Lock

M21™ - 02G G10

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Carson Flipper Opening
- G10 Handle

M21-02G

Blade: Length: 3.125" (79.3 mm)
Edge: Plain
Steel: 8Cr14MoV
Finish: Dark Gray Titanium Nitride
Thickness: 0.120" (3.0 mm)

Closed: 4.250" (107.9 mm)
Open: 7.250" (184.1 mm)
Weight: 3.8 oz. (108.0 g)
Handle: G10
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822

M21™ - 12G G10 WITH VEFF SERRATIONS™

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Carson Flipper Opening
- Veff Serrations™

M21-12G

Blade: Length: 3.125" (79.3 mm)
Edge: Combination
Steel: 8Cr14MoV
Finish: Dark Gray Titanium Nitride
Thickness: 0.120" (3.0 mm)

Closed: 4.250" (107.9 mm)
Open: 7.250" (184.1 mm)
Weight: 3.8 oz. (108.0 g)
Handle: G10
Style: Folding Knife w/Locking Liner

U.S. Patent Nos. 7,437,822, D559,939

M21™ - 04G G10 LARGE

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Carson Flipper Opening
- G10 Handle

M21-04G

Blade: Length: 3.875" (98.4 mm)
Edge: Plain
Steel: 8Cr14MoV
Finish: Dark Gray Titanium Nitride
Thickness: 0.140" (3.5 mm)

Closed: 5.375" (136.5 mm)
Open: 9.250" (234.9 mm)
Weight: 5.9 oz. (167.0 g)
Handle: G10
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822

M21™ - 14G G10 LARGE WITH VEFF SERRATIONS™

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Carson Flipper Opening
- Veff Serrations™

M21-14G

Blade: Length: 3.875" (98.4 mm)
Edge: Combination
Steel: 8Cr14MoV
Finish: Dark Gray Titanium Nitride
Thickness: 0.140" (3.5 mm)

Closed: 5.375" (136.5 mm)
Open: 9.250" (234.9 mm)
Weight: 5.9 oz. (167.0 g)
Handle: G10
Style: Folding Knife w/Locking Liner

U.S. Patent Nos. 7,437,822, D559,939

M4™ - 02

Designed by Kit Carson in Vine Grove, Kentucky

- OutBurst® Assisted Opening
- G10 Bolster w/White Bone Handle
- Satin Blade Finish

M4-02

Blade: Length: 3.250" (82.5 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Satin
Thickness: 0.121" (3.0 mm)
Closed: 3.750" (95.2 mm)
Open: 7.000" (177.8 mm)
Weight: 3.3 oz. (93.6 g)
Handle: G10 Bolster w/White Bone
Style: Folding Knife w/Locking Liner

M4™ - 02S

Designed by Kit Carson in Vine Grove, Kentucky

- OutBurst® Assisted Opening
- LAWKS™ Safety
- Stainless Steel Bolster w/Red Stag Handle

M4-02S

Blade: Length: 3.250" (82.5 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Satin
Thickness: 0.121" (3.0 mm)
Closed: 3.750" (95.2 mm)
Open: 7.000" (177.8 mm)
Weight: 3.3 oz. (93.6 g)
Handle: Stainless Steel Bolster w/Red Stag
Style: Folding Knife w/Locking Liner

M4™ - 02W

Designed by Kit Carson in Vine Grove, Kentucky

- OutBurst® Assisted Opening
- Locking Liner
- Stainless Steel Bolster w/Burl Wood Handle

M4-02W

Blade: Length: 3.250" (82.5 mm)
Edge: Plain

HUMDINGER™

Designed by Ken Onion Kaneohe, Hawaii

- 65 Mn Carbon Steel Blade
- Black Corrosion Resistant Blade Finish
- Versatile Utility Sheath

K110KKP

Blade: Length: 5.973" (151.7 mm)
 Edge: Plain
 Steel: 65Mn Carbon Steel
 Finish: Black Corrosion Resistant
 Thickness: 0.180" (4.5 mm)
 Overall: 11.438" (290.5 mm)
 Weight: 9.4 oz. (266.4 g)
 Handle: Thermoplastic Polyurethane (TPU)
 Style: Fixed Blade Knife w/Sheath
 Sheath: Material: Polypropylene
 Weight: 5.7 oz. (161.5 g)

MONASHEE™

Designed by Russ Kommer in Fargo, North Dakota

- Field Strip Technology
- High Carbon Stainless Steel Blade
- Double Injection Molded Handle

2842

Blade: Length: 3.631" (92.2 mm)
 Edge: Plain
 Steel: 8Cr13MoV
 Finish: Satin
 Thickness: 0.126" (3.2 mm)
 Handle: TPR Thermoplastic Rubber
 Open: 8.875" (225.4 mm)
 Closed: 5.174" (131.4 mm)
 Weight: 4.8 oz. (136 g)
 Style: Folding Knife w/Locking Liner

U.S. Patent Nos. 9,586,328 & 9,597,809

HUNT'N FISCH™

Designed by Larry Fischer in Boise, Idaho

- Spine Friction Grooves for Blade Control
- Multi-Colored G10 Handle
- High Quality Leather Sheath

2861

Blade: Length: 2.990" (75.9 mm)
 Edge: Plain
 Steel: 8Cr13MoV
 Finish: Satin
 Thickness: 0.130" (3.3 mm)
 Overall: 7.250" (184.1 mm)
 Weight: 3.6 oz. (102.0 g)
 Handle: Multi-Layered G10 with Purple Fob
 Style: Fixed Blade Knife w/Sheath
 Sheath: Material: Leather
 Weight: 1.5 oz. (42.5 g)

100% of the CRKT® net profits of this knife go to the Pancreatic Cancer Action Network in memory of Larry Fischer. Visit www.pancreaticcancer.org

CLARK FORK™ FILLET KNIFE

Designed by Ken Steigerwalt in Orangeville, Pennsylvania

- Innovative Tail Lock Safety Bar
- Blade Locks Securely Into Place
- Reinforced Nylon Sheath

3085

Blade: Length: 10.940" (277.9 mm)
 Edge: Plain
 Steel: 5Cr13MoV
 Finish: Satin
 Thickness: 0.060" (1.5 mm)
 Closed: 7.130" (181.0 mm)
 Open: 10.940" (280.0 mm)
 Weight: 1.8 oz. (51.0 g)
 Handle: Glass-Reinforced Nylon w/Plastic Insert
 Style: Folding Knife w/Tail Lock
 Sheath: Material: Reinforced Nylon
 Weight: 0.300 oz. (8.5 g)

U.S. Patent Pending

HOIST'N LOK® TREE STAND HOIST

Designed by Russ Kommer in Fargo, North Dakota

- Innovative, Patented, Secure, Cam Lock
- Includes: Pulley, Extension Arm
- Strap, Ratchet, and Rope

HOIST2

Specs: 1 6061 Aluminum Lobed Pulley Wheel
 CNC Machined Knurling on Pulley Wheel
 6.5 ft. (1.9m) of Heavy Duty Nylon Ratchet Strap
 Carbon Steel Housing: Length: 7.500" (19.0 cm)
 Width: 2.200" (5.6 cm)
 Depth: 1.800" (4.5 cm)
 Capacity: 100 lbs. (45.3 kg)
 Includes: 1 Carabiner
 45 ft. (13.7 m) of 6mm Rope

U.S. Patent No. 8,596,615

HOIST'N LOK® BIG GAME HOIST

Designed by Russ Kommer in Fargo, North Dakota

- Innovative, Patented, Secure, Cam Lock
- 4:1 Mechanical Pulley System
- Includes: Pulley, Gambrel, Rope

HOIST1

Specs: 1 6061 Aluminum Lobed Pulley Wheel
 CNC Machined Knurling on Pulley Wheel
 3 POM Plastic Pulley Wheels
 Pulley Housing: Length: 7.500" (19.0 cm)
 Width: 2.200" (5.6 cm)
 Depth: 1.800" (4.6 cm)
 Gambrel: Length: 25.000" (19.1 cm)
 Height: 6.380" (16.3 cm)
 Rod Diameter: 0.390" (1.0 cm)
 Weight: Pulley & Carabiner: 1 lb. 8 oz. (680.4 g)
 Capacity: 500 lbs. (226.8 kg)
 Includes: 2 Carabiners
 40 ft. (12.2 m) of 8mm Rope

U.S. Patent No. 8,596,615

OUTDOOR

NEW**MINIMALIST® CLEAVER**

Designed by Alan Folts in Melbourne, Florida

- Bead Blast Blade Finish
- Compact Utility Neck Knife
- Glass Reinforced Nylon Sheath

2383

Blade: Length: 2.131" (54.13 mm)
Edge: Plain

- Torx T5, T6, T7, T8, T9, T10
- Option to disengage single tools from the barrel for use in tight spaces

9903

Material: Stainless Steel
 Overall: 3.384" (84.6 mm)
 Weight: 2.2 oz. (62.4 g)
 Style: Multi-Tool

TWIST & FIX™ SOCKET TOOL

Designed by Ryan Glasgow in Portland, Oregon

- SAE Socket - 1/4, 5/16, 7/16
- Metric Socket - 6mm, 8mm, 10mm
- Option to disengage single tools from the barrel for use in tight spaces

9904

Material: Stainless Steel
 Overall: 5.585" (141.8 mm)
 Weight: 13.8 oz. (391.2 g)
 Style: Multi-Tool

KNIFE MAINTENANCE TOOL

Designed by Tom Stokes in Williamsburg, Virginia

- Torx - T6 and T8
- Tungsten Carbide Field Sharpener and Ceramic Honing Edge
- Flat Head Screwdriver, Bottle opener

9704

Length: 2.702" (68.6 mm)
 Weight: 2.2 oz. (62.7 g)
 Handle: Glass-Reinforced Nylon

🏆 Accessory of the Year: Blade Show Award

TECHNICIAN™

Designed by Glenn Klecker in Silverton, Oregon

- One Hand Opening Knife Blade
- Standard 1/4" Bit Driver
- Folding Chisel/Scraper - Great for Scraping Gaskets

9201

Open: Pliers: 7.000" (177.8 mm)
 Closed: 4.453" (113.1 mm)
 Weight: 11.8 oz. (335 g)

Knife Blade
 Length: 2.584" (65.6 mm)
 Thickness: 0.097" (2.5 mm)
 Finish: Satin

Features: Standard 1/4" Bit Driver, Bottle Opener, Wire Stripper/Line Cutter, Belt Cutter, Telescoping Magnetic Pick Up Tool, Feeler Gauge .080" - .020", Needle Nose Pliers

Handle: G10
 Style: Multi-Tool

BIVY™

Designed by Hans Florine in Lafayette, California

- Spring Assisted Pliers
- One Handed Opening Multi-Tool
- Knife, Phillips, Flat Screwdriver, Marlinspike

9250

Open: Pliers: 6.030" (153.1 mm)
 Blade: 7.060" (179.3 mm)
 Closed: 4.120" (104.6 mm)
 Weight: 7.7 oz. (218 g)

Knife Blade
 Length: 2.948" (74.8 mm)
 Thickness: 0.090" (2.3 mm)
 Finish: Satin
 Steel: 5Cr15MoV

Features: Spring Assisted Opening Pliers, Pliers Actuated by Slide Button, Screwdrivers Flat | Phillips, Marlinspike

Handle: 1060 Al
 Style: Multi-Tool w/Locking Liner

PRYMA™

Designed by Jesper Voxnaes in Loegstrup, Denmark

- Pry bar section on front of tool can be used for prying, opening boxes, scraping
- Bottle Opener
- Multi-Wrench - 1/4 inch, 3/8, 5/16, 7/16 wrench

9011

Length: 3.235" (82.2 mm)
 Width: 1.445" (36.7 mm)
 Weight: 0.9 oz. (150.0 g)
 Material: Stainless Steel
 Finish: Black Stonewash
 Feature: Prybar, Flat Screwdriver, Bottle Opener, Multi-Wrench, Glass Breaker

*non-load bearing carabiner for carry options

K.E.R.T.™ (KEYRING. EMERGENCY. RESCUE. TOOL.)

Designed by Ray Kirk in Tahlequah, Oklahoma

- Keychain Micro-Tool
- Seat Belt Strap Cutter w/Vinyl Slip Sheath
- Bottle Opener, Flat Screwdriver, Wrenches

2055

Seat Belt Strap Cutter, Oxygen Tank Wrench,
1/4" Wrench, Bottle Opener, Flat Screwdriver

Length: 2.480" (63.0 mm)
Thickness: 0.100" (2.5 mm)
Material: 8Cr13MoV
Weight: 0.8 oz. (23 g)

CRKT® MICRO TOOL & KEYCHAIN SHARPENER

Designed by Tom Stokes in Williamsburg, Virginia

- Seat Belt Strap Cutter
- Field Sharpener
- Bottle Opener

9096

Field Sharpener, Seat Belt Strap Cutter
Flat Screw Driver, Bottle Opener

Length: 3.375" (86.0 mm)
Material: Glass-Reinforced Nylon
Stainless Steel
Weight: 0.6 oz. (17 g)

EXITOOL®

Designed by Russ Kommer in Fargo, North Dakota

- Emergency Seat Belt Strap Cutter
- Tungsten Carbide Side Window Breaker
- LED Light. Clips Directly onto Seat Belt

9030

Length: 2.750" (69.8 mm)
Weight: 1.6 oz. (45.4 g)
Handle: Black Glass-Reinforced Nylon
Feature: Seat Belt Strap Cutter
Tungsten Carbide Window Breaker
LED Flashlight
Battery: 3V CR2032 Lithium

U.S. Patent Nos. D642,444 and D642,445

SUNBEAMER

TACTICAL

NEW

PROVOKE™ FIRST RESPONDER

Designed by Joe Caswell Newbury Park, California

4042
 Blade: Length: 2.41" (61.21 mm)
 Edge: Plain
 Steel: D2
 Finish: Titanium Nitride (TiNi)
 Thickness: 0.209" (5.31 mm)
 Closed: 5.06" (128.52 mm)
 Open: 7.25" (184.15 mm)
 Weight: 6.1 oz. (172.93g)
 Handle: 6061 T6 Aluminum
 Style: Folding Knife w/Kinematic™

Sheath: Material: Boltaron®
 Weight: 1.1 oz. (31.2 g)

Patent Pending
 Boltaron® is a registered trademark of the SIMONA AMERICA Group.

Weight: 3.6 oz. (102.0 g)

Boltaron® is a registered trademark of the SIMONA AMERICA Group.

KANGEE™ T-HAWK

Designed by Ryan Johnson of RMJ Tactical in Chattanooga, Tennessee

- SK5 Carbon Steel w/Spike
- Glass-Reinforced Nylon Handle with Textured Grip
- MOLLE Compatible Boltaron® Sheath w/Buckle Strap

2725

Blade: Length: 2.930" (74.4 mm)
Edge: Axe Front Dual Plain Edge w/ Spike
Steel: SK5 Carbon Steel
Finish: Black Powder Coat
Thickness: 0.230" (5.8 mm)

Overall: 13.750" (349.2 mm)

Weight: 1lb. 8.4 oz. (691.7 g)

Handle: Glass-Reinforced Nylon w/EDM Finish

Style: Fixed Blade w/Sheath

Sheath: Material: Boltaron® / MOLLE Compatible
Weight: 3.6 oz. (102.0 g)

Boltaron® is a registered trademark of the SIMONA AMERICA Group.

THUNDER STRIKE™

Designed by Pat and Wes Crawford in West Memphis, Arkansas

- Black Corrosion Resistant Blade Coating
- Cord-Wrapped Handle
- Gear Compatible Sheath w/J-Hook Clip

2032

Blade: Length: 2.830" (71.8 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Black
Thickness: 0.140" (3.5 mm)

Overall: 7.440" (188.9 mm)

Weight: 3.6 oz. (102.0 g)

Handle: Cord-Wrapped Stainless Steel

Style: Fixed Blade Knife w/Sheath

Sheath: Material: Glass-Reinforced Nylon/
J-Hook, MOLLE Compatible
Weight: 1.4 oz. (40.0 g)

STING™

Designed by A.G. Russell in Rogers, Arkansas

- Black Corrosion Resistant Coating
- Dual Edge 1050 Hot Forged Carbon Steel
- Glass-Reinforced Nylon Sheath

2020

Blade: Length: 3.197" (81.0 mm)
Edge: Dual Plain
Steel: 1050
Finish: Black Powder Coat
Thickness: 0.137" (3.4 mm)

Overall: 6.850" (173.9 mm)

Weight: 3.9 oz. (111.0 g)

Handle: Hot Forged 1050 Carbon Steel

Style: Fixed Blade Knife w/Sheath

Sheath: Material: Nylon w/Glass-Reinforced
Nylon Insert
Weight: 2.4 oz. (68.0 g)

SHRILL™

Designed by Matthew Lerch in Sussex, Wisconsin

- Dual Edge Titanium Nitride Finish Blade
- Polished Resin Infused Fiber Handle Overlays
- High Quality Leather Sheath w/Boot Clip

2075

Blade: Length: 4.769" (121.1 mm)
Edge: Dual Plain
Steel: 8Cr13MoV
Finish: Titanium Nitride
Thickness: 0.152" (3.8 mm)

Overall: 8.688" (220.7 mm)

Weight: 4.3 oz. (122.0 g)

Handle: Full Tang w/Polished Resin Infused Fiber Overlay

Style: Fixed Blade Knife w/Sheath

Sheath: Material: Leather
Weight: 2.2 oz. (62.4 g)

FIRE SPARK™

Designed by Matthew Lerch in Sussex, Wisconsin

- OutBurst® Assisted Opening
- Fire Safe® Thumb Stud Actuation
- Locking Liner

1050

Blade: Length: 3.875" (98.4 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Satin
Thickness: 0.121" (3.0 mm)

Closed: 4.750" (120.6 mm)

Open: 8.630" (219.2 mm)

Weight: 5.3 oz. (150.0 g)

Handle: Aluminum w/G10 Inlay

Style: Folding Knife w/Locking Liner

U.S. Patent Nos. 7,918,028

FIRE SPARK™ BLACK

Designed by Matthew Lerch in Sussex, Wisconsin

- OutBurst® Assisted Opening
- Fire Safe® Thumb Stud Actuation
- Locking Liner

1050K

Blade: Length: 3.875" (98.4 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Black Oxide
Thickness: 0.121" (3.0 mm)

Closed: 4.750" (120.6 mm)

Open: 8.630" (219.2 mm)

Weight: 5.3 oz. (150.0 g)

Handle: Aluminum w/G10 Inlay

Style: Folding Knife w/Locking Liner

U.S. Patent Nos. 7,918,028

COPACETIC™

Designed by Larry Hanks in Smith Valley, Nevada

- Flipper Opening
- Black Oxide Finish
- Black Glass-Reinforced Nylon w/Textured TPE

2620

Blade: Length: 3.054" (77.5 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Black Oxide
Thickness: 0.115" (2.9 mm)

Closed: 4.551" (115.6 mm)

Open: 7.625" (193.6 mm)

Weight: 4.7 oz. (133.2 g)

Handle: Polypropylene with Glass Fiber; Thermoplastic Elastomer

Style: Folding Knife w/Locking Liner

Available in Clam Pack as 2620C

NEW**M16® - 13FX**

Designed by Kit Carson in Vine Grove, Kentucky

- Veff Serrations™ Provide Superior Cutting of Rope, Straps, and Fibrous Materials
- G10 for Excellent Grip in All Weather Conditions
- Gear Compatible Glass Reinforced Nylon Sheath can be Strapped Anywhere on Your Kit

M16-13FX

Blade: Length: 4.636" (117.75 mm)
 Edge: Combination
 Steel: SK5 Carbon Steel
 Finish: Powder Coat
 Thickness: 0.155" (3.94 mm)

Overall: 9.375" (238.13 mm)
 Weight: 4.6 oz. (130.41 g)
 Handle: G10
 Style: Fixed Blade Knife w/Sheath

Sheath: Material: Glass-Reinforced Nylon
 Weight: 1.4 oz. (39.7 g)

U.S. Patent No. D559,939

M16® - 04A AUTOMATIC

Designed by Kit Carson in Vine Grove, Kentucky

- 100% Made in the USA
- Push Button Automatic Opening w/Patented Safety
- Lightweight Black Anodized Aluminum Handle

M16-04A

Blade: Length: 4.000" (101.6 mm)
 Edge: Plain
 Steel: CPM 154
 Finish: Black Matte DLC Coating
 Thickness: 0.160" (4.0 mm)

Closed: 5.310" (134.8 mm)
 Open: 9.250" (234.9 mm)
 Weight: 5.0 oz. (142.0 g)
 Handle: 6061 Type III Anodized Aluminum
 Style: Folding Knife w/Button Lock

U.S. Patent No. 5,822,866 under license from Mentor Group, LLC.
 The M16-04A is only available through authorized distributors.

The sale of automatic knives is Federally regulated. Always check permissibility within your state or locality as non-Federal personal may be precluded from ownership or use by state laws.

M16® - 12ZLEK TANTO WITH TRIPLE POINT™ SERRATIONS

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Triple Point™ Serrations
- Seat Belt Strap Cutter and Tungsten Carbide Window Breaker

M16-12ZLEK

Blade: Length: 3.000" (76.2 mm)
 Edge: Combination
 Steel: AUS 8
 Finish: Black Titanium Nitride
 Thickness: 0.118" (2.9 mm)

Closed: 4.375" (111.1 mm)
 Open: 7.310" (185.6 mm)
 Weight: 3.6 oz. (102.0 g)
 Handle: Glass-Reinforced Nylon
 Style: Folding Knife w/Locking Liner

U.S. Patent Nos. 7,437,822 and D678,456.

M16® - 13ZLEK SPEAR POINT WITH TRIPLE POINT™ SERRATIONS

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Triple Point™ Serrations
- Seat Belt Strap Cutter and Tungsten Carbide Window Breaker

M16-13ZLEK

Blade: Length: 3.375" (85.7 mm)
 Edge: Combination
 Steel: AUS 8
 Finish: Black Titanium Nitride
 Thickness: 0.118" (2.9 mm)

Closed: 4.875" (123.8 mm)
 Open: 8.250" (209.5 mm)
 Weight: 3.7 oz. (105.0 g)
 Handle: Glass-Reinforced Nylon
 Style: Folding Knife w/Locking Liner

U.S. Patent Nos. 7,437,822 and D678,456.
 Available in Clam Pack as M16-13ZLEKC

M16® - 14ZLEK TANTO LARGE WITH TRIPLE POINT™ SERRATIONS

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Triple Point™ Serrations
- Seat Belt Strap Cutter and Tungsten Carbide Window Breaker

M16-14ZLEK

Blade: Length: 3.750" (95.2 mm)
Edge: Combination
Steel: AUS 8
Finish: Black Titanium Nitride
Thickness: 0.138" (3.5 mm)

Closed: 5.500" (139.7 mm)
Open: 9.250" (235.0 mm)
Weight: 6.2 oz. (176.0 g)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/Locking Liner

U.S. Patent Nos. 7,437,822 and D678,456.
Available in Clam Pack as M16-14ZLEKC

M16® - 13SFG SPECIAL FORCES TANTO WITH VEFF SERRATIONS™

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Veff Serrations™
- Dual Hilt Blade Guard w/G10 Handle

M16-13SFG

Blade: Length: 3.500" (88.9 mm)
Edge: Combination
Steel: 8Cr14MoV
Finish: Black Titanium Nitride
Thickness: 0.120" (3.0 mm)

Closed: 4.750" (120.6 mm)
Open: 8.250" (209.5 mm)
Weight: 4.0 oz. (113.0 g)
Handle: G10
Style: Folding Knife w/Locking Liner

U.S. Patent Nos. 7,437,822, D559,939
Available in Clam Pack as M16-13SFGC

M16® - 14SFG SPECIAL FORCES TANTO LARGE WITH VEFF SERRATIONS™

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Veff Serrations™
- Dual Hilt Blade Guard w/G10 Handle

M16-14SFG

Blade: Length: 3.990" (101.3 mm)
Edge: Combination
Steel: 8Cr14MoV
Finish: Black Titanium Nitride
Thickness: 0.140" (3.5 mm)

Closed: 5.375" (136.5 mm)
Open: 9.250" (234.9 mm)
Weight: 5.9 oz. (167.0 g)
Handle: G10
Style: Folding Knife w/Locking Liner

U.S. Patent Nos. 7,437,822, D559,939
Available in Clam Pack as M16-14SFGC

M16® - 14SF SPECIAL FORCES TANTO LARGE WITH TRIPLE POINT™ SERRATIONS

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Triple Point Serrations™
- Dual Hilt Blade Guard w/Aluminum Handle

M16-14SF

Blade: Length: 3.990" (101.3 mm)
Edge: Combination
Steel: AUS 8
Finish: Black Titanium Nitride
Thickness: 0.140" (3.5 mm)

Closed: 5.375" (136.5 mm)
Open: 9.250" (234.9 mm)
Weight: 5.7 oz. (162.0 g)
Handle: Aluminum
Style: Folding Knife w/Locking Liner

Available in Clam Pack as M16-14SFC
U.S. Patent No. 7,437,822

NEW**M21™ - 12SFG SPECIAL FORCES DROP POINT WITH VEFF SERRATIONS™**

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety Offers an Extra Layer of Protection
- Veff Serrations™ Provide Superior Cutting of Rope, Straps, and Fibrous Materials
- Dual Hilt Prevents Your Hand From Slipping up the Blade

M21-12SFG

Blade: Length: 3.113" (79.0 mm)
 Edge: Combination
 Steel: 1.4116
 Finish: Corrosion Resistant Coating
 Thickness: 0.118" (2.9 mm)

Closed: 4.232" (107.4 mm)
 Open: 7.375" (187.3 mm)
 Weight: 3.7 oz. (172.93g)
 Handle: G10
 Style: Folding Knife w/Locking Liner

U.S. Patent Nos. 7,437,822, D559,939.

Closed: 5.250" (133.3 mm)
Open: 9.250" (234.9 mm)
Weight: 6.1 oz. (173.0 g)
Handle: G10 w/Dual Hilt
Style: Folding Knife w/Locking Liner

U.S. Patent Nos. 7,437,822, D559,939

M16® - 13ZM DESERT SPEAR POINT WITH TRIPLE POINT™ SERRATIONS

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Triple Point™ Serrations
- Glass-Reinforced Nylon Handle w/Carson Flipper

M16-13ZM

Blade: Length: 3.500" (88.9 mm)
Edge: Combination
Steel: AUS 4
Finish: Bead Blast
Thickness: 0.100" (2.5 mm)

Closed: 4.750" (120.6 mm)
Open: 8.250" (209.5 mm)
Weight: 3.5 oz. (99.2 g)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822

M16® - 14ZSF DESERT TANTO WITH TRIPLE POINT™ SERRATIONS

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Triple Point™ Serrations
- Glass-Reinforced Nylon Handle w/Dual Hilt

M16-14ZSF

Blade: Length: 3.990" (101.4 mm)
Edge: Combination
Steel: AUS 8
Finish: Bead Blast
Thickness: 0.140" (3.5 mm)

Closed: 5.375" (136.5 mm)
Open: 9.250" (234.9 mm)
Weight: 6.3 oz. (179.0 g)
Handle: Glass-Reinforced Nylon w/Dual Hilt
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822
Available in Clam Pack as M16-14ZSFC

M16® - 14D DESERT TANTO COPPER WITH TRIPLE POINT™ SERRATIONS

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Triple Point™ Serrations
- Aluminum Handle w/Carson Flipper

M16-14D

Blade: Length: 3.990" (101.4 mm)
Edge: Combination
Steel: AUS 8
Finish: Copper Titanium Nitride
Thickness: 0.140" (3.5 mm)

Closed: 5.375" (136.5 mm)
Open: 9.250" (234.9 mm)
Weight: 6.3 oz. (179.0 g)
Handle: Aluminum
Style: Folding Knife w/Locking Liner

U.S. Patent No. 7,437,822
Available in Clam Pack as M16-14DC

M16® - 14ZER EMERGENCY RESCUE TANTO LARGE WITH TRIPLE POINT™ SERRATIONS

Designed by Kit Carson in Vine Grove, Kentucky

- Automated Liner Safety
- Triple Point™ Serrations
- Seat Belt Strap Cutter and Tungsten Carbide Window Breaker

M16-14ZER

Blade: Length: 3.750" (95.2 mm)
Edge: Combination
Steel: AUS 8
Finish: Satin
Thickness: 0.138" (3.5 mm)

Closed: 5.500" (139.7 mm)
Open: 9.250" (234.9 mm)
Weight: 6.2 oz. (176.0 g)
Handle: ER Orange Glass-Reinforced Nylon
Style: Folding Knife w/Locking Liner

U.S. Patent Nos. 7,437,822, D678,456

BEAR CLAW™ E.R.

Designed by Russ Kommer in Fargo, North Dakota

- Blunt Tip w/Triple Point™ Serrations
- Mirror Polish Blade Finish
- Emergency Orange Glass-Reinforced Nylon Handle

2510ER

Blade: Length: 2.375" (60.3 mm)
Edge: Blunt Tip w/Triple Point™ Serrations
Steel: AUS 4
Finish: Mirror Polish
Thickness: 0.130" (3.3 mm)

Overall: 5.750" (146.0 mm)
Weight: 3.4 oz. (96.4 g)
Handle: ER Orange Glass-Reinforced Nylon
Style: Fixed Blade Knife w/Sheath

Sheath: Material: Glass-Reinforced Nylon
Weight: 1.1 oz. (31.2 g)

NEW**TECHLINER™**

Designed by Mike Bond in Pearl City, Hawaii

- Magnetic Ends Secure Cap and Allow for Attaching to Surfaces
- 6061 Aircraft Grade Aluminum
- Includes Fisher Space Pen® Black Ink Cartridge (Refill #PR4)

TPENBOND

Pen: Length: 5.063" (128.6 mm)
Weight: 1.0 oz. (28.3 g)
Finish: Black Anodized
Handle: 6061 Aluminum
Refill: Fisher Space Pen® Refill #PR4

NATHAN'S KNIFE KIT

Designed by Nathan and Glenn Klecker in Silverton, Oregon

- Wood Knife Kit
- Teach Knife Safety and Responsibility
- Family Craft Project Recommended for Kids 7 and Up

1032

Blade: Length: 3.250" (82.5 mm)
 Material: Beechwood
 Overall: 8.000" (203.2 mm)
 Weight: 1.8 oz. (51.0 g)
 Handle: Beechwood
 Style: Folder w/Lockback Safety

AR TOOL

Designed by Joe Wu in Mountain View, California

- Ideal Multi-Tool to Keep in Range Bag for Use on the Go
- AR Scraping Tools for Removing Carbon from Bolt Carrier Group
- Friction Folding Knife Blade with Nail Nick

**R5101**

Blade: Length: 1.934" (49.12 mm)
 Edge: Plain
 Steel: 8Cr14MoV
 Finish: Bead Blast
 Thickness: 0.089" (2.26 mm)
 Closed: 3.087" (78.41 mm)
 Open: 6.75" (171.45 mm)
 Weight: 3.7 oz. (104.89g)
 Handle: 2Cr13; Bead Blast Finish
 Style: Multi-Tool

SHOTGUN TOOL

Designed by Joe Wu in Mountain View, California

- Ideal Multi-Tool to Keep in Range Bag for Use on the Go
- Shotgun Choke Tube Tool
- Friction Folding Knife Blade with Nail Nick

**R5102**

Blade: Length: 1.934" (49.12 mm)
 Edge: Plain
 Steel: 8Cr14MoV
 Finish: Bead Blast
 Thickness: 0.089" (2.26 mm)
 Closed: 3.087" (78.41 mm)
 Open: 6.75" (171.45 mm)
 Weight: 3.7 oz. (104.89g)
 Handle: 2Cr13; Bead Blast Finish
 Style: Multi-Tool

1911 TOOL

Designed by Gary Smith in Woodbury, Vermont

- Ideal Multi-Tool to Keep in Range Bag for Use on the Go
- Specialty Tools Include Barrel Bushing Wrench and Punch Rod
- Folding Knife with Liner Lock

**R5100**

Blade: Length: 2.515" (63.88 mm)
 Edge: Plain
 Steel: Stainless Steel
 Finish: Bead Blast
 Thickness: 0.087" (2.21 mm)
 Closed: 4.135" (105.03 mm)
 Open: 9.000" (228.6 mm)
 Weight: 9.7 oz. (275 gm)
 Handle: G10
 Style: Multi-Tool

BLACK POWDER™ HATCHET

Designed by Ryan Johnson of RMJ Tactical in Chattanooga, Tennessee

R3001K

Blade: Length: 3.161" (80.29 mm)
 Edge: Axe Edge
 Steel: 1055 Carbon Steel
 Finish: Black Corrosion-Resistant Coating
 Thickness: 0.908" (23.06 mm)
 Open: 13.188" (334.98 mm)
 Weight: 26.8 oz. (759.8 gm)
 Handle: Glass-Reinforced Nylon
 Style: Hatchet

- Hot Forged 1055 Carbon Steel is Strong and Durable
- Magnesium Phosphate Black Coating on the Head Provides Corrosion Resistance
- Blunt Face Hammer Poll for Pounding Tent Stakes and Other Camp Chores

INCENDIARY™

Designed by Robert Carter in Hillister, Texas

R2000K

Blade: Length: 2.953" (75.01 mm)
 Edge: Plain
 Steel: 8Cr13MoV
 Finish: Stonewash
 Thickness: 0.150" (3.81 mm)
 Closed: 4.023" (102.18 mm)
 Open: 7.000" (177.8 mm)
 Weight: 4.8 oz. (136 gm)
 Handle: Front - 6061 Aluminum
 Back - Stainless Steel
 Style: Folding Knife w/ Frame Lock

- Modified Tanto Blade; Black Stonewash Finish Improves Corrosion Resistance, Reduces Glare, and Masks Wear
- Thumb Disc Blade Deployment Option
- Deep Groove on Back of the Blade for Maximum Blade Control

RTD

Designed by Matthew Lerch in Sussex, Wisconsin

R4801K

Blade: Length: 3.67" (93.22 mm)
 Edge: Plain
 Steel: 1.4116
 Finish: EDP Coating
 Thickness: 0.125" (3.18 mm)
 Closed: 4.85" (123.2 mm)
 Open: 8.5" (216 mm)
 Weight: 3.9 oz. (110.6 gm)
 Handle: Glass-Reinforced Nylon
 Style: Folding Knife w/ Locking Liner

U.S. Patent Nos. 9,586,328, 9,597,809.

- Field Strip Technology
- Locking Liner
- Flipper Opening

HIGH-BRASS™

Designed by MJ Lerch in Sussex, Wisconsin

R2601

Blade: Length: 3.19" (81.03 mm)
 Edge: Plain
 Steel: 8Cr13MoV
 Finish: Satin
 Thickness: 0.106" (2.69 mm)
 Closed: 4.43" (112.52 mm)
 Open: 7.56" (192 mm)
 Weight: 3.6 oz. (102.1 gm)
 Handle: Glass-Reinforced Nylon
 Style: Folding Knife w/ Locking Liner

- OutBurst® Assisted Opening
- Locking Liner
- Glass Reinforced Nylon Handle

HIGH-BRASS™ WITH VEFF SERRATIONS™

Designed by MJ Lerch in Sussex, Wisconsin

- OutBurst® Assisted Opening
- Locking Liner
- Glass Reinforced Nylon Handle

R2602

Blade: Length: 3.19" (81.03 mm)
 Edge: Combination
 Steel: 8Cr13MoV
 Finish: Satin
 Thickness: 0.106" (2.69 mm)
 Closed: 4.43" (112.52 mm)
 Open: 7.56" (192 mm)
 Weight: 3.6 oz. (102.1 gm)
 Handle: Glass-Reinforced Nylon
 Style: Folding Knife w/ Locking Liner

U.S. Patent No. D559,939

WINDAGE™

Designed by Ken Onion in Kaneohe, Hawaii

- IKBS™ Ball Bearing Pivot System
- 6061 Aluminum Handle
- Innovative Pocket Clip

R2401

Blade: Length: 3.78" (96.01 mm)
 Edge: Plain
 Steel: 8Cr13MoV
 Finish: Stonewash
 Thickness: 0.141" (3.58 mm)
 Closed: 5.07" (128.8 mm)
 Open: 8.81" (223.8 mm)
 Weight: 5.3 oz. (150.3 gm)
 Handle: 6061 Aluminum
 Style: Folding Knife w/ Locking Liner

WINDAGE™ WITH VEFF SERRATIONS™

Designed by Ken Onion in Kaneohe, Hawaii

- IKBS™ Ball Bearing Pivot System
- 6061 Aluminum Handle
- Veff Serrations™

R2402

Blade: Length: 3.78" (96.01 mm)
 Edge: Combination
 Steel: 8Cr13MoV
 Finish: Stonewash
 Thickness: 0.141" (3.58 mm)
 Closed: 5.07" (128.8 mm)
 Open: 8.81" (223.8 mm)
 Weight: 5.3 oz. (150.3 gm)
 Handle: 6061 Aluminum
 Style: Folding Knife w/ Locking Liner

U.S. Patent No. D559,939

TRAJECTORY™

Designed by Matthew Lerch in Sussex, Wisconsin

- OutBurst® Assisted Opening
- Frame Lock
- Stainless Steel Handle

R2802

Blade: Length: 3.24" (82.3 mm)
 Edge: Plain
 Steel: 8Cr13MoV
 Finish: Satin
 Thickness: 0.108" (2.74 mm)
 Closed: 4.16" (106 mm)
 Open: 6.94" (176.3 mm)
 Weight: 4.0 oz. (113.4 gm)
 Handle: Stainless Steel
 Style: Folding Knife w/ Frame Lock

CARBINE

Designed by Matthew Lerch in Sussex, Wisconsin

- Stonewash Finish
- Full Tang Handle
- Glass Reinforced Nylon Sheath

**R2701**

Blade: Length: 1.85" (47 mm)
Edge: Plain
Steel: 5Cr15MoV
Finish: Stonewash
Thickness: 0.114" (2.9 mm)
Overall: 4.40" (111.8 mm)
Weight: 1.2 oz. (34 gm)
Handle: Glass-Reinforced Nylon
Style: Fixed Blade Knife
Sheath: Glass-Reinforced Nylon Sheath
Weight: 0.9 oz. (25.5 gm)

ACCURATE™ RISING POINT

Designed by Bill Harsey in Creswell, Oregon

- Rubber Over-Mold
- Full-Tang Handle with Inset Ruger® Medallion
- Reinforced Nylon-Fabric Sheath

**R2202**

Blade: Length: 4.37" (111 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Satin
Thickness: 0.161" (4.1 mm)
Overall: 9.00" (228.6 mm)
Weight: 6.6 oz. (187.1 gm)
Handle: Rubber Over-Mold
Style: Fixed Blade Knife
Sheath: Reinforced Woven Nylon w/ Belt Loop
Weight: 1.7 oz. (45 gm)

ACCURATE™ DROP POINT

Designed by Bill Harsey in Creswell, Oregon

- Rubber Over-Mold
- Full-Tang Handle with Inset Ruger® Medallion
- Reinforced Nylon-Fabric Sheath

**R2201**

Blade: Length: 4.37" (111 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Satin
Thickness: 0.161" (4.1 mm)
Overall: 9.00" (228.6 mm)
Weight: 6.6 oz. (187.1 gm)
Handle: Rubber Over-Mold
Style: Fixed Blade Knife
Sheath: Reinforced Woven Nylon w/ Belt Loop
Weight: 1.7 oz. (45 gm)

ACCURATE™ FOLDER

Designed by Bill Harsey in Creswell, Oregon

- Locking Liner
- Glass Reinforced Handle with Stainless Steel Bolster
- Drop-Point Blade Style

**R2203**

Blade: Length: 3.38" (85.85 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Satin
Thickness: 0.149" (3.78 mm)
Closed: 4.64" (117.90 mm)
Open: 8.06" (205 mm)
Weight: 5.5 oz. (155.95 gm)
Handle: Glass-Reinforced Nylon w/ Stainless Steel Bolster
Style: Folding Knife w/ Locking Liner
Sheath: Reinforced Woven Nylon w/ Snap Closure
Weight: 1.1 oz. (31.2 gm)

2-STAGE™

Designed by Robert Carter in Hillister, Texas

- Stonewashed Tanto Blade
- Machined Hard Anodized Aluminum and Stainless Steel Handle
- 4-Position Clip

TACTICAL

R2101K

Blade: Length: 4.00" (101.6 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Black Stonewash
Thickness: 0.200" (5.1 mm)

Closed: 5.47" (138.9 mm)
Open: 9.44" (239.7 mm)
Weight: 8.1 oz. (229.6 gm)
Handle: Aluminum & Stainless Steel
Style: Folding Knife w/ Frame Lock

2-STAGE™ WITH VEFF SERRATIONS™

Designed by Robert Carter in Hillister, Texas

- Stonewashed Tanto Blade
- Machined Hard Anodized Aluminum and Stainless Steel Handle
- 4-Position Clip

TACTICAL

R2102K

Blade: Length: 4.00" (101.6 mm)
Edge: Combination
Steel: 8Cr13MoV
Finish: Black Stonewash
Thickness: 0.200" (5.1 mm)

Closed: 5.47" (138.9 mm)
Open: 9.44" (239.7 mm)
Weight: 8.1 oz. (229.6 gm)
Handle: Aluminum & Stainless Steel
Style: Folding Knife w/ Frame Lock

U.S. Patent No. D559,939

2-STAGE™ COMPACT

Designed by Robert Carter in Hillister, Texas

- Stonewashed Tanto Blade
- Machined Hard Anodized Aluminum and Stainless Steel Handle
- 4-Position Clip

TACTICAL

R2104K

Blade: Length: 4.00" (101.6 mm)
Edge: Combination
Steel: 8Cr13MoV
Finish: Black Stonewash
Thickness: 0.161" (4.1 mm)

Closed: 5.00" (127 mm)
Open: 8.5" (216 mm)
Weight: 6.8 oz. (192.7 gm)
Handle: Aluminum & Stainless Steel
Style: Folding Knife w/ Frame Lock

U.S. Patent No. D559,939

GO-N-HEAVY™

Designed by Bill Harsey in Creswell, Oregon

- Stonewashed Drop-Point Blade
- Hard Anodized Sure Grip Handle
- Nylon-Fabric Sheath

TACTICAL

R1801

Blade: Length: 5.00" (127 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Stonewash
Thickness: 0.185" (4.7 mm)

Closed: 6.18" (156.9 mm)
Open: 11.18" (283.9 mm)
Weight: 10.1 oz. (286.3 gm)
Handle: Black Anodized Aluminum
Style: Folding Knife w/ Locking Liner
Sheath: Reinforced Woven Nylon w/ Two-Position Belt Loop
Weight: 1.9 oz. (55 gm)

U.S. Patent No. D754,515

GO-N-HEAVY™ WITH VEFF SERRATIONS™

Designed by Bill Harsey in Creswell, Oregon

- Stonewashed Drop-Point Blade
- Hard Anodized Sure Grip Handle
- Nylon-Fabric Sheath

R1802

Blade: Length: 5.00" (127 mm)
 Edge: Combination
 Steel: 8Cr13MoV
 Finish: Stonewash
 Thickness: 0.185" (4.7 mm)
 Closed: 6.18" (156.9 mm)
 Open: 11.18" (283.9 mm)
 Weight: 10.1 oz. (286.3 gm)
 Handle: Black Anodized Aluminum
 Style: Folding Knife w/ Locking Liner
 Sheath: Reinforced Woven Nylon w/ Two-Position Belt Loop
 Weight: 1.9 oz. (55 gm)

U.S. Patent No. D559,939 & D754,515

GO-N-HEAVY™ COMPACT

Designed by Bill Harsey in Creswell, Oregon

- Stonewashed Drop-Point Blade
- Hard Anodized Sure Grip Handle
- Nylon-Fabric Sheath

R1803

Blade: Length: 3.50" (88.9 mm)
 Edge: Combination
 Steel: 8Cr13MoV
 Finish: Stonewash
 Thickness: 0.137" (3.5 mm)
 Closed: 4.33" (109.9 mm)
 Open: 7.83" (198.8 mm)
 Weight: 3.7 oz. (104.8 gm)
 Handle: Black Anodized Aluminum
 Style: Folding Knife w/ Locking Liner
 Sheath: Reinforced Woven Nylon w/ Two-Position Belt Loop
 Weight: 1.2 oz. (35 gm)

U.S. Patent No. D754,515

ALL CYLINDERS™

Designed by Bill Harsey in Creswell, Oregon

- Machined G10 Handle
- Unique Revolver Cylinder-Style Pivot Point
- 2-Position Clip

R2001K

Blade: Length: 4.00" (101.6 mm)
 Edge: Plain
 Steel: 8Cr13MoV
 Finish: Black Stonewash
 Thickness: 0.161" (4.1 mm)
 Closed: 5.00" (127 mm)
 Open: 9.00" (228.6 mm)
 Weight: 6.6 oz. (187.6 gm)
 Handle: Machined G10
 Style: Folding Knife w/ Locking Liner

ALL CYLINDERS™ WITH VEFF SERRATIONS™

Designed by Bill Harsey in Creswell, Oregon

- Machined G10 Handle
- Unique Revolver Cylinder-Style Pivot Point
- 2-Position Clip

R2002K

Blade: Length: 4.00" (101.6 mm)
 Edge: Combination
 Steel: 8Cr13MoV
 Finish: Black Stonewash
 Thickness: 0.161" (4.1 mm)
 Closed: 5.00" (127 mm)
 Open: 9.00" (228.6 mm)
 Weight: 6.6 oz. (187.6 gm)
 Handle: Machined G10
 Style: Folding Knife w/ Locking Liner

U.S. Patent No. D559,939

ALL CYLINDERS™ +P

Designed by Bill Harsey in Creswell, Oregon

R2003K

Blade: Length: 5.00" (127 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Black Stonewash
Thickness: 0.188" (4.76 mm)
Closed: 6.18" (158.75 mm)
Open: 11.25" (285.75 mm)
Weight: 11.6 oz. (328.85 gm)
Handle: Machined G10
Style: Folding Knife w/ Locking Liner

- Stonewashed Drop-Point Blade
- Machined G10 Handle
- 2-Position Clip

HOLLOW POINT™ +P

Designed by Ken Onion in Kaneohe, Hawaii

R2301

Blade: Length: 3.60" (91.44 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Satin
Thickness: 0.147" (3.73 mm)
Closed: 4.83" (122.68 mm)
Open: 8.50" (215.9 mm)
Weight: 6.00 oz. (170.09 gm)
Handle: Stainless Steel w/ Inserts
Style: Folding Knife w/ Frame Lock

- IKBS™ Ball Bearing Pivot System
- 2-Position Clip
- Frame lock

HOLLOW POINT™

Designed by Ken Onion in Kaneohe, Hawaii

R2302

Blade: Length: 3.17" (80.15 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Satin
Thickness: 0.128" (3.25 mm)
Closed: 4.25" (107.95 mm)
Open: 7.50" (190.5 mm)
Weight: 4.40 oz. (125 gm)
Handle: Stainless Steel w/ Inserts
Style: Folding Knife w/ Frame Lock

- IKBS™ Ball Bearing Pivot System
- 2-Position Clip
- Frame lock

HOLLOW POINT™ COMPACT

Designed by Ken Onion in Kaneohe, Hawaii

R2303

Blade: Length: 2.75" (85.8 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Satin
Thickness: 0.108" (2.74 mm)
Closed: 3.63" (92.2 mm)
Open: 5.83" (148.08 mm)
Weight: 2.2 oz. (60 gm)
Handle: Stainless Steel w/ Inserts
Style: Folding Knife w/ Frame Lock

- IKBS™ Ball Bearing Pivot System
- One Position, Tip-Up Pocket Clip
- Frame lock

CRACK-SHOT™ COMPACT

Designed by Ken Steigerwalt in Orangeville, Pennsylvania

- Features Outburst® Assisted Opening
- Reliable Fire Safe® Blade Safety
- Stonewashed Drop-Point Blade

R1205

Blade: Length: 3.38" (85.8 mm)
 Edge: Plain
 Steel: 8Cr13MoV
 Finish: Satin
 Thickness: 0.110" (2.7 mm)
 Closed: 4.00" (101.6 mm)
 Open: 7.12" (180.8 mm)
 Weight: 3.9 oz. (110.5 gm)
 Handle: Glass-Reinforced Nylon
 Style: Folding Knife w/ Locking Liner

U.S. Patent No. 7,918,028

CRACK-SHOT™ COMPACT WITH TRIPLE POINT™ SERRATIONS

Designed by Ken Steigerwalt in Orangeville, Pennsylvania

- Features Outburst® Assisted Opening
- Reliable Fire Safe® Blade Safety
- Stonewashed Drop-Point Blade

R1206

Blade: Length: 3.38" (85.8 mm)
 Edge: Combination
 Steel: 8Cr13MoV
 Finish: Satin
 Thickness: 0.110" (2.7 mm)
 Closed: 4.00" (101.6 mm)
 Open: 7.12" (180.8 mm)
 Weight: 3.9 oz. (110.5 gm)
 Handle: Glass-Reinforced Nylon
 Style: Folding Knife w/ Locking Liner

U.S. Patent No. 7,918,028

CRACK-SHOT™ COMPACT BLACK

Designed by Ken Steigerwalt in Orangeville, Pennsylvania

- Features Outburst® Assisted Opening
- Reliable Fire Safe® Blade Safety
- Stonewashed Drop-Point Blade

R1201K

Blade: Length: 3.38" (85.8 mm)
 Edge: Plain
 Steel: 8Cr13MoV
 Finish: Stonewash
 Thickness: 0.110" (2.7 mm)
 Closed: 4.00" (101.6 mm)
 Open: 7.12" (180.8 mm)
 Weight: 3.9 oz. (110.5 gm)
 Handle: Glass-Reinforced Nylon
 Style: Folding Knife w/ Locking Liner

U.S. Patent No. 7,918,028

CRACK-SHOT™ BLACK WITH TRIPLE POINT™ SERRATIONS

Designed by Ken Steigerwalt in Orangeville, Pennsylvania

- Features Outburst® Assisted Opening
- Reliable Fire Safe® Blade Safety
- Stonewashed Drop-Point Blade

R1202K

Blade: Length: 3.38" (85.8 mm)
 Edge: Combination
 Steel: 8Cr13MoV
 Finish: Stonewash
 Thickness: 0.110" (2.7 mm)
 Closed: 4.00" (101.6 mm)
 Open: 7.12" (180.8 mm)
 Weight: 3.9 oz. (110.5 gm)
 Handle: Glass-Reinforced Nylon
 Style: Folding Knife w/ Locking Liner

U.S. Patent No. 7,918,028

FOLLOW-THROUGH™

Designed by Matthew Lerch in Sussex, Wisconsin

- Stonewashed Blade
- Glass Reinforced Nylon Handle
- 2-Position Clip

**R1701**

Blade: Length: 3.75" (95.2 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Stonewash
Thickness: 0.145" (3.7 mm)
Closed: 5.00" (127 mm)
Open: 8.75" (222.25 mm)
Weight: 5.2 oz. (147.4 gm)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/ Locking Liner

FOLLOW-THROUGH™ COMPACT

Designed by Matthew Lerch in Sussex, Wisconsin

- Stonewashed Blade
- Glass Reinforced Nylon Handle
- 2-Position Clip

**R1703**

Blade: Length: 3.25" (82.5 mm)
Edge: Plain
Steel: Stonewash
Finish: Bead Blast
Thickness: 0.125" (3.2 mm)
Closed: 4.25" (107.9 mm)
Open: 7.50" (190.5 mm)
Weight: 3.4 oz. (96.3 gm)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/ Locking Liner

FOLLOW-THROUGH™ COMPACT WITH VEFF FLAT TOP SERRATIONS®

Designed by Matthew Lerch in Sussex, Wisconsin

- Stonewashed Blade
- Glass Reinforced Nylon Handle
- 2-Position Clip

**R1704**

Blade: Length: 3.25" (82.5 mm)
Edge: Combination
Steel: Stonewash
Finish: Bead Blast
Thickness: 0.125" (3.2 mm)
Closed: 4.25" (107.9 mm)
Open: 7.50" (190.5 mm)
Weight: 3.4 oz. (96.3 gm)
Handle: Glass-Reinforced Nylon
Style: Folding Knife w/ Locking Liner

MUZZLE BRAKE™

Designed by Ken Onion in Kaneohe, Hawaii

- Stout Full Tang Blade
- Clip-Point Blade Shape
- Glass Reinforced Nylon Handle

**R2501K**

Blade: Length: 7.50" (190.5 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Black Powder Coat
Thickness: 0.187" (4.75 mm)
Overall: 12.00" (304.8 mm)
Weight: 11.1 oz. (314.67 gm)
Handle: Glass-Filled Nylon
Style: Full-Tang Fixed Blade
Sheath: Glass Reinforced Nylon
Weight: 3.8 oz. (105 gm)

POWDER-KEG™ DROP POINT

Designed by Ryan Johnson of RMJ Tactical in Chattanooga, Tennessee

- Field Strip Technology
- Field Strip lets you easily disassemble your knife for cleaning without tools
- 1.4116 Blade Steel w/Glass-Reinforced Nylon Handle

SURVIVAL

R1401K

Blade: Length: 4.60" (116.8 mm)
Edge: Plain
Steel: 8Cr13MoV
Finish: Black Stonewash
Thickness: 0.185" (4.7 mm)
Overall: 9.44" (239.7 mm)
Weight: 7.7 oz. (218.2 gm)
Handle: 2 Part TPR Over-Mold Scales
Style: Fixed Blade Knife
Sheath: Stitched Leather Sheath w/ Belt Loop
Weight: 2.9 oz. (85 gm)

BOLT ACTION PEN - BLACK

Designed by Brian Fellhoelter in Lake Havasu City, Arizona

- Ruger® Bolt-Action Pen
- w/ Fisher Space Pen® Black Ink Cartridge (Refill #PR4)
- Machined Anodized Aluminum Body

EVERYDAY

R3401K

Length: 5.50" (139.7 mm)
Finish: Anodize
Thickness: 0.437" (11.12 mm)
Weight: 1.1 oz. (30 gm)
Machine Anodized Aluminum Body
Stainless Steel Bolt and Pocket Clip

BOLT ACTION PENCIL - RED

Designed by Brian Fellhoelter in Lake Havasu City, Arizona

- Ruger® Bolt-Action Mechanical Pencil
- w/ Schmidt® Pencil System (Refill DSM-2007 - .05mm)
- Machined Anodized Aluminum Body

EVERYDAY

R3402

Length: 5.50" (139.7 mm)
Finish: Anodize
Thickness: 0.437" (11.12 mm)
Weight: 1.1 oz. (30 gm)
Machine Anodized Aluminum Body
Stainless Steel Bolt and Pocket Clip

LIFETIME WARRANTY

This warranty covers any defects in materials or workmanship. If one of our knives ever breaks or fails because of material or manufacturing defect, we'll replace the knife.

This warranty runs as long as you own your knife. Coverage ends if you sell or otherwise transfer the knife to someone else, or if your CRKT® knife is modified in any way.

This warranty does not cover breakage or failure due to misuse of the knife. Knives as good as ours rarely break or fail because of a defect. Usually they break or fail from what we call "tool abuse"—using them for unsuitable tasks like prying or pounding. Therefore, blade tip breakage is not covered by our warranty. Use of a knife for any purpose other than cutting voids the warranty. So please match the tool to the task, and use your knife only for cutting. The knife will last longer, and you'll be safer too. This warranty does not cover failure of mechanisms due to your failure to properly maintain them.

Misuse of your knife can cause serious injury or even death. It can also cause your knife to break or fail and the warranty will not apply. Failure to properly maintain your knife also may cause its mechanisms not to function properly, which could result in injury to you or damage to the knife.

Finally, consequential and incidental damages are not recoverable under this warranty. Some states do not allow the exclusion or limitation of consequential damages, so this exclusion or limitation may not apply to you.

Limited Accessory Warranty

CRKT® accessories, including deployment systems, carry systems, and sharpeners, have a one-year limited warranty against defects in material or manufacturing.

Limited Electronics Warranty

The electronic portion of CRKT® products, including LED systems, are covered by a 90-day limited warranty from the date of purchase to the original purchaser. Warranty claims must be accompanied by proof of purchase.

SPECIFICATIONS

Colors and textures in all product images are as close as reproduction processes permit. Variations may occur in finishing processes such as anodizing and titanium nitride coating, G10, and in other natural materials such as leather, bone, and wood.

We recommend you visit your local retailer and/or reference online videos and multiple product images and angles to view CRKT® products under the best possible lighting conditions to ensure complete satisfaction. Blade lengths in this catalog are measured according to the American Knife and Tool Institute Guidelines. Specifications on products are subject to change without notice and can also be viewed on CRKT.com.
